Subject: Letter of Recommendation

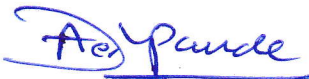

Being a preferred vendor for Paccar, US (a fortune 500 company) , we have to be ahead of time and keep pace with the changing environment. We wanted to have a quick and seamless communication with Paccar, US In order to cut down the non-value added time and activities. We took a decision to implement cloud based EDI solution. For providing these solutions, we have shortlisted Tangentia India Technologies Pvt Ltd.

Our decision of partnering with Tangentia paid us rich dividends as the EDI solutions provided to us was timely and efficient; moreover the support team was very responsive.

We are very happy with the overall solution provided to us. Tangentia is very professional and the people responsible for our account go to great lengths to not only solve problems, but also suggest improvements beyond the scope of the task. I have no hesitation in recommending Tangentia to others.

Yours faithfully,

For Polybond India Pvt Ltd

Amaresh Deshpande
